

[Part 2 of:] Master Tung's Extraordinary Points

Master Tung's Acupuncture is a highly regarded, unique system of Chinese Medicine known for its simplicity, efficacy, and distinct acupuncture points, which differ from the traditional meridian-based points. Developed by Master Tung Ching-Chang (1916-1975), the system was shared with the public after a history of family-kept oral tradition. Its key features include unique point locations, a unique five-zang channel system, holographic diagnostic methods, bloodletting, and special needling techniques; which combine for rapid and powerful results in clinical practice.
